# LV500 PRO

## REMOTE CONTROLLED SLOPE MOWER

### SPECIFICATIONS LV500 PRO

Engine	Yanmar 36 Kw
Horsepower	50HP
Torque	146Nm
Fuel type	Diesel
Fuel capacity (L)	29
Ground speed (Km/hr)	8
Standard Flail Weight	227kg
Machine Weight only	1280kg
Flail Speed	3300 rpm
Machine Height	1180mm
Machine Length	2060mm
Machine Width	1340-1740mm
Main attachment pump	70lt @ 320bar
Service pump	24lt @ 190bar
Extendable undercarriage	(Closed) 1330 mm (Open) 1730 mm
Attachment sideshifting	500mm hydraulic - 500mm mechanical
Attachments	Pallet Forks      Sprayer Stump Grinder      Gruffalo Loader Bucket      Grapple Heavy Duty Forestry Flail

### FEATURES

Powerful 4-cylinder YANMAR DIESEL ENGINE	Patented undercarriage to climb steep slopes and anti-de-tracking system of the tracks.
Engine lubrication patented by MDB for continuous use on steep slopes of up to 60°.	MDB turbine air pre-filter (entirely in metal) with continuous expulsion, separates and removes the majority of dust.
The integrated hydraulic side-shifting plate allows for lateral adjustment of the attachment of up to 400mm.	The totally hydraulic floating attachment plate of the mulcher allows the tool to remain constantly in contact with the floor.
Integrated cylinders allow for widening of the tracks from 1340mm up to 1730mm (patented system).	3 fully-proportional auxiliary lines. Tow Hook
