# LV600 PRO

## REMOTE CONTROLLED SLOPE MOWER

### SPECIFICATIONS LV600 PRO

Engine	Kohler Turbo 42 Kw	
Horsepower	56HP	
Torque	225 Nm	
Fuel type	Diesel	
Fuel capacity (L)	34	
Ground speed (Km/hr)	9	
Standard Flail Weight	250kg	
Machine Weight only	1520kg	
Flail Speed	3300 rpm	
Machine Height	1200mm	
Machine Length	2210mm	
Machine Width	1360-1760mm	
Main attachment pump	(piston closed loop) 83 lt/min @320bar	
Service pump	22 lt/min @ 180bar	
Extendable undercarriage	(Closed) 1360 mm (Open) 1760 mm	
Attachment sideshifting	(Hydraulic) 500 mm + (Mechanical) 500 mm	
Attachments	Pallet Forks	Stump Grinder
	Loader Bucket	Grapple
	Gruffalo	Sprayer
	Heavy Duty Forestry Flail	

### FEATURES

Powerful 3-cylinder KOHLER TURBO INTERCOOLER COMMON RAIL ENGINE	Patented undercarriage to climb steep slopes and anti-de-tracking system of the tracks.
Engine lubrication patented by MDB for continuous use on steep slopes of up to 60°.	The reversible fan and an oversized radiator allow for continuous work at full power also at high outside temperatures.
The integrated hydraulic side-shifting plate allows for lateral adjustment of the attachment of up to 400mm.	The totally hydraulic floating attachment plate of the mulcher allows the tool to remain constantly in contact with the floor.
Integrated cylinders allow for widening of the tracks from 1360mm up to 1760mm (patented system).	2 auxiliary lines (1 prop. + 1 on/off). Tow Hook.
